The above Return shows the total amount of Parish Cess assessed each year for the last seven years at Easter Vestry. The Vestry Clerk has made inquiries, both at the North Union Workhouse, and also at the office of the Collector-general of Taxes, and cannot find out any clue to give an answer to the Queries Nos. 7 and 8, the reason being that the Poor-law Valuation is made on the wards, not on the parish, and several portions of the parish of St. George are in different wards.

Under the head of Contingencies, the chief item is premiums to Fire-engine Keepers. We avail ourselves of the opportunity to state, that annual table fraud has been practised by Fire-engine Keepers, in order to obtain the premiums allowed by Act of Parliament; in many instances, those who act as scouts or assistants to Fire-engine Keepers have set fire to chimneys, thereby to entitle themselves to share in those premiums. We take leave to suggest that it would be of public advantage, and a better security in cases of fire, to prevent its spread, &c., to have efficient fire-engines in readiness in the several public stations, in charge of the police.

We certify the above return of Parish Cess, and its expenditure, to be correct,

David Taylor,
J. Crawley Bassett, } Churchwardens.

The Rate for Collection has been raised to 10½ per cent. last Easter Vestry, in consideration of the great exertion and labour required to collect this extensive parish, a great portion of the inhabitants being assessed for sums under 1s.

£ 26. 0. 6. of the sum assessed in the year 1848 for support of Deserted Children, was to discharge liabilities to that amount due for the previous year. In the year 1849, £ 33 15. 2½ of assessment for Coffins, was amount of account furnished for like to Easter 1847; and £ 110. 10 8. of assessment for Deserted Children in addition, due for same period. In the year 1849, £ 49 7 0. of amount levied for Coffins, was also due for year ending Easter 1848. The Uncollectable Arrears apply to the gross sums of outstanding of the Assessments for those years, a portion of which is always collected in each succeeding year and subsequent years, rendering it impossible to make a positive distinction between actual and insolvent arrears existing at the termination of each year. The Beadle's Fees cannot be ascertained for the five years ending 1849, the person who filled the office during that period having deceased, but it is presumed they were, on an average, about the same amount as stated for the following years.

John Frederick,

N.B.—The sums set forth in the foregoing Return under the head of "Contingencies," for the years 1846 and 1851, were assessments made during those years, to provide for the liquidation of a taxed bill of costs due by the parish to the Churchwardens of 1841, for proceedings incurred in defending a mandamus of the Court of Queen's Bench, in the case of "The Queen v. S. A. Daly."
